Officers Elected, Reports Read and Prizes Awarded in Fly and Spinner Casting Contests—Association's Membership Growing.

That there is a wide interest in the sport of hunting and fishing in Ulster county was shown by the large attendance at the annual meeting of the Ulster County Fish and Game Association held at the New York State Armory, this city, Wednesday evening, March 8. Fully 300 were present, 150 being members of the Association, several of the towns being represented. This association departed from its regular routine this year by having an open fly and spinner casting contest also in allowing non-members to make suggestions.

President Elva H. Bogart, president, and Secretary Carl Preston submitted his annual report for 1921, which was as follows:

In submitting this report I desire to say that to my mind the past year has been the most active year in the history of the Association, particularly in gaining new members. With these new comers we now have a total of 249 names on the roll. I will endeavor to show the extent of our work other than which the treasurer's report will show. Two hundred and forty strong we have worked along giving not only to the member but to other sportsmen, the storekeeper, garage men, the railroad men, and so along the line, especially those living in the country, recreational and financial gain. You as an individual could do a lot to assist in the work but for some reason you will not take the time or trouble which leaves the work to be done on the shoulders of the organization. Various streams of which there is a list were stocked with trout, bass, pike, perch, a total of half a million fish having been planted in the waters of those streams. Our activities were not only confined to the stocking of streams with fish but to obtaining 2,200 pheasant eggs. I can safely say from reports received regarding the hatching of these eggs Ulster county has increased its supply of live pheasants by 1,400 birds. Added to this 120 live birds which we also obtained and liberated will give us a total of over 1,500 pheasants hatched and liberated during the past year. For the present year an order has been placed for 4,000 eggs and 200 live birds.

"In 1920 we started restocking our mountains with snow shoe or varying hares. That year we could buy only twelve, but in 1921 we boosted the order to 108, which were shipped to Pine Hill, Phoenix, Woodland Valley, Ellenville, New Paltz, Highland, Saugerties and Kingston. This year we hope to cover other parts of the county with this kind of game. In closing my report as secretary I have nothing further to say other than that pheasant shooting in Ulster county has come to stay."

Carl Preston, as treasurer, submitted the following report:

**RIVAL FORCES IN LIMERICK QUIET**

By Telegram to The Freeman.

Limerick, Ireland, March 3.—This city remains quiet and hope is growing that a clash between the loyal troops of the Irish Republican army and the revolting Limerick and Tipperary battalions will be averted. A wavering Limerick brigade that the rebels were trying to get to join them, has united with the loyal troops supporting Michael Collins and Arthur Griffith.

Parleys between representatives of both sides continue. The loyal soldiers have taken up their quarters in the barracks. The rebels have occupied several small hotels and the poor house into cantonments.

Further reinforcements of loyal troops have arrived here and the rebels are greatly outnumbered. Both sides are fully armed for "field service."

It was reported that Michael Collins and Eamonn de Valera, the two great rival leaders in Irish politics, may come to Limerick.

**IRISH PUBLICITY MEN ORDERED HERE**

By Telegram to The Freeman.

Dublin, March 3.—Austin Stack and J. J. O'Kelly, emissaries of Eamonn de Valera, have been ordered to the United States to conduct a publicity campaign in behalf of the Irish republic, it was learned today. They will attempt to offset the efforts of James O'Meara and Sean MacCollie, who are to work for the Irish Free State in America.

**High School P.T.A. Meeting.**

At the meeting of the High School Parent-Teachers Association held at the high school auditorium Wednesday afternoon, motion was offered and adopted to attend the meeting of the Parent-Teachers Association of School No. 7, on Tuesday, March 14, at which time a speaker from Albany will be present. Dues and contributions for the Child's Welfare Work of the state was ordered paid and the money was transmitted.

**Day Mill Equipment.**

The Haines Fall Coal & Lumber Company have purchased a modern drag saw and Hercules engine combined from the Canfield Supply.

**Killed in Welsh Explosion.**

Cardiff, Wales, March 9.—Three men were killed and five injured in an explosion in a munition factory at Pembrey today.

## SPEAKERLESS DINNER TICKETS NEARLY ALL SOLD

Only 35 tickets for the big turkey dinner to be given at the Elks' Club on Thursday evening, March 16, remain unsold, and those who wait too long to buy tickets are going to be disappointed. Besides the turkey dinner, which will be served piping hot, there will be a Radio (wireless telephone) concert in charge of an expert from New York, and several vaudeville acts supplied by Al King.

There will be no speeches, after dinner or otherwise. This dinner will speak for itself and anything it doesn't say the Radio and Al King's performers will say for it.

A dinner without stale jokes, or toastmaster and a lot of tiresome sermonizers is a novelty that will be appreciated by an almost unbroken-to-the-public and the Retail Merchants' Association has surely struck another original idea in putting on such an affair.

## REFUSAL DOESN'T SURPRISE LONDON

But It Is Assorted Genoa Conference Is Planned To Remedy Conditions Complained of Here—Lloyd-George About Again.

By Telegram to The Freeman.

London, March 9.—Keen disappointment was expressed in official circles today over the refusal of the United States to participate actively in the international economic conference at Genoa next month. The attitude of the United States was not completely unexpected however. Premier Lloyd-George is hopeful that the American government will find it possible to approve some of the decisions made there.

Downing street officials expressed surprise over the reasons given by the American state department for not participating in the conference. They declared that the conference had been called to adjust conditions of which the United States complained. It was denied that there was any political significance to the meeting.

For the time being foreign affairs are overshadowing the political crisis resulting from the conflict between Premier Lloyd-George and the Tory "die hards" in the coalition party. The premier's health has improved and he is attending to his official duties.

## THIRD SERIES GAME AT SHANDENON HALL

The third game of the series between the Phenicia A. A. Five and the Fleischmanns basketball teams will be played Saturday evening, March 11, at the Shandenon Hall, Albany. Although the Phenicia boys have lost but three games all season the Fleischmanns team boast of inflicting one of the setbacks and the series now stands at one victory apiece.

The importance of Saturday's game is significant inasmuch as the winner of this contest will have a decided advantage in annexing the honors for the entire series which is slated to go five games. Johnson, Merrifield, Townsend, Gross, Simpson, Eunist and Yerry will be available for duty with the Phenicia team while the Fleischmanns lineup will be selected from Faulkner, Earl, Herman, Jocelyn, Terry, Shaver and Avery. Mr. Cassidy, the popular and efficient referee, will call play promptly at 8:30 and after the game there will be a dance, music by Beehler's orchestra of Kingston.

## PRINCESS DELIGHTED TO ADMIT HER GUILT

By Telegram to The Freeman.

Berlin, March 9.—Princess Eitel Friedrich, daughter-in-law of the former Kaiser, appeared in the Potsdam court today as co-respondent in a divorce suit brought by the Baroness Plattenberg.

The persons in the court were astonished at the princess's frank confession of guilt.

The charges were in the form of a legal statement which was handed up to the judge.

"Do you swear this statement is true?" asked the court.

The princess laughed as though enjoying a joke as she replied.

"I swear it is true with the greatest of pleasure."

The princess confessed that she had known the baron intimately for years and that their relations continued after her marriage to the ex-Kaiser's son.

The court was angered by the story of the princess and the manner in which she treated the charges against her morality.

The presiding judge reprimanded her, telling her that her conduct was not compatible with the dignity of the court.

## Dynamite Injuries 11.

By Telegram to The Freeman.

Niagara Falls, N. Y., March 9.—A workman's sledge coming into contact with dynamite in a boulder yesterday caused an explosion that injured eleven men, one fatally. In Shaft No. 2 of the Niagara Falls Power Company's new tunnel, James Judge, 63 years old, of No. 21 Euclid Place, Buffalo, foreman, died in St. Mary's Hospital last night. His skull had been fractured and his arms and legs broken.

## Princess Leaves for Paris.

By Telegram to The Freeman.

London, March 9.—Viscountess Lascelles and her royal bride, the Princess Mary, left for Paris today to complete their honeymoon in continental Europe. From Paris they will go to Florence, Italy. A great crowd gathered in front of Buckingham Palace hoping for a view of the newly-married pair.

Amsterdam, March 9.—Eleven lives were lost when a Dutch vessel foundered in a gale in the Zuyder Zee today.

## CITY CAN USE POINT PARK FREE

Says Superintendent Tallow, and Rent Out Concessions—Kiwanis Hopes For No Curtailment of Playground Supervision—Saulpaugh Explains Hotel Business.

Captain C. A. Baltz's team won the first skirmish over Captain Dittus's team in the Kiwanis attendance contest, he having 28 men present at today's luncheon to Dittus's 24. There are 60 men in the club, three being added today, the Rev. William J. Nelson, C. E. Wonderly and Matt Morgenstern.

A resolution introduced by Arthur Burns was unanimously adopted approving the playground policy recently in existence here, with its supervisory force and requesting that the board of public works add to these facilities rather than curtail them, as it has been rumored would be done. Kiwanis has already made plans to be of assistance to the city's youth by adding this work.

During the discussion it developed that Superintendent Tallow of the trolley road had told a member that the city could have Kingston Point Park this summer rent free and if it would rent the concessions there ought to make money out of it.

Sam Saulpaugh of the Kirkland Hotel told some of the trials of the hotel man which make his life average the second shortest of any vocation. The old time hotel with its general proprietor and motherly landlady, which was in reality a six day a week home, he said, is rapidly passing out and in its place is coming what he termed the large and luxurious rooming house, on the European plan—the enemy of democracy and the home-loving instinct.

## RIVER ICE IS STILL HOLDING

Only Open Water Off Kingston Point Is Ferry Track—Skillypot Has Resumed Trips—Navigation Date Not Fixed.

Despite the heavy rain storm and the warm weather of the past few days, the ice in the Hudson river is still holding fast, and the only open water visible off Kingston Point is the track of the ferry transport running between Kingston and Rhinecliff. No date has been fixed as yet for the opening of navigation between this port and New York.

Friday morning the Central Hudson Line will resume navigation for the season between Poughkeepsie and New York. Navigation between Newburgh and New York was resumed last week. While there is considerable ice between Poughkeepsie and Newburgh, it is not expected that the Central Hudson Line boats will have any difficulty in breaking a track through the ice.

Today the heavy current in the Rondout creek had subsided and the Skillypot resumed trips after being off the route all day Wednesday, when the owners of the ferry thought it unwise to operate the craft owing to the freshet in the creek.

Wednesday afternoon the Cornell Line tug Rob went up the creek as far as Hittsboro's boat yard, and broke up the ice as it was thought that an ice gorge might form, and then the broken ice drifted out into the river. The ice in the upper creek is gradually breaking up and drifting down but no danger of an ice gorge is expected.

## GOVERNOR SIGNS LIVERMORE BILL

Providing For Two County Committees From Each District, One of Which May Be Woman.

Governor Miller has signed the Livermore bill which provides for equal representation of women with men on county committees of all political parties. The bill was signed at the executive chamber at four o'clock and the formal ceremony was attended by the members of the women's executive committee of the Republican state committee.

While the Livermore bill does not say that a man and a woman shall be elected in each election district, it provides that there shall be two committeemen elected in each district, instead of one as at present, and the bill was passed by the legislature in conformity with the recommendation made by Governor Miller in his annual message with the understanding that each county of the state will now give equal representation to men and women on its political committees.

Motion picture operators snapped the scene in the executive chamber when Governor Miller signed the Livermore bill. Those who were present when the bill was signed included Mrs. Arthur L. Livermore of Westchester county, who is chairman of the women's executive committee of the Republican state committee and whose son, Assemblyman Russell B. Livermore sponsored the bill in the assembly; Mrs. William H. Ives of Westchester, Mrs. George A. Diven of Chemung, Mrs. Earl Van Wae of Monroe, Mrs. M. Minerva Palmer of Binghamton, Mrs. W. T. Van Orden of Greene, Miss Florence Wardwell of Oswego, Mrs. Rosalie Lowie Whitaker of Brooklyn, Miss Helen Varick Boswell of New York, Mrs. Nathan Glauber of New York, Mrs. Burt Miller of Tioga and Mrs. MacDonald DeWitt of Brooklyn.

## PLAN TO PASS BONUS MONDAY

By Telegram to The Freeman.

Washington, March 9.—The soldier bonus bill will be passed by the house Monday, March 20, unless plans completed by house Republican leaders today are changed.

Under set rules of the house, the bill will be called up on that date and by a two-thirds vote, sent along to passage. It is confidently believed that the bill will get far more than the required two-thirds of all votes cast.

## VAN WAGENEN'S BILLS PASSED

By Assembly—One Raises Condemnation Commissioners' Pay and Other Requires Publication of Lands to Be Sold Here for Taxes.

By Telegram to The Freeman.

Albany, March 9.—(Special.)—Two bills by Assemblyman Van Wageningen of Kingston were passed by the assembly today. One the measure amends the condemnation law with relation to the compensation for commissioners appointed to condemn real property for public use by raising such compensation from \$6 to \$25 a day for each day of actual service. The second bill relates to the publication of tax sale notices relating to the city of Kingston.

The new law reads:

§ 133. The treasurer shall, immediately after the said first day of August, cause to be published once a week, for two successive weeks, in the official newspapers of the city, a list or statement of the parcels of land, charged with any unpaid tax, penalty or interest, describing each parcel according to the description required by section one hundred and thirty-two, with a notice that each of said parcels of land will, on a day to be specified in said notice, be sold at public auction at a place in the city therein specified, to discharge the tax, penalty or interest and expenses aforesaid, which shall be due thereon at the time of sale. At the time and place stated in said notice the treasurer shall commence the sale of said parcels of land and continue the same from day to day until all shall be disposed of.

§ 2. This act shall take effect immediately.

Governor Miller has signed the Livermore bill which provides for equal representation of women with men on county committees of all political parties. The bill was signed at the executive chamber at four o'clock and the formal ceremony was attended by the members of the women's executive committee of the Republican state committee.

While the Livermore bill does not say that a man and a woman shall be elected in each election district, it provides that there shall be two committeemen elected in each district, instead of one as at present, and the bill was passed by the legislature in conformity with the recommendation made by Governor Miller in his annual message with the understanding that each county of the state will now give equal representation to men and women on its political committees.

Motion picture operators snapped the scene in the executive chamber when Governor Miller signed the Livermore bill. Those who were present when the bill was signed included Mrs. Arthur L. Livermore of Westchester county, who is chairman of the women's executive committee of the Republican state committee and whose son, Assemblyman Russell B. Livermore sponsored the bill in the assembly; Mrs. William H. Ives of Westchester, Mrs. George A. Diven of Chemung, Mrs. Earl Van Wae of Monroe, Mrs. M. Minerva Palmer of Binghamton, Mrs. W. T. Van Orden of Greene, Miss Florence Wardwell of Oswego, Mrs. Rosalie Lowie Whitaker of Brooklyn, Miss Helen Varick Boswell of New York, Mrs. Nathan Glauber of New York, Mrs. Burt Miller of Tioga and Mrs. MacDonald DeWitt of Brooklyn.

## PINKY PIG'S IDEA

"I have an idea," grunted Pinky Pig.

"Of what use is that?" asked Grandfather Porky. "No one can eat it."

"No one can," grunted Miss Ham.

"No one," said Mrs. Pinky Pig.

"No one," said Master Pink Pig.

"Not even a pig could, and a pig isn't fussy," said Sammy Sausage.

"Sammy is right," said Brother Bacon.

"But maybe he has an idea of how to find food or something like that," suggested Miss Ham. "We had better let him speak."

"Let him speak," the others said, "as there might be something to what Miss Ham says."

"You all talk," said Pinky Pig, "as though you could stop me from speaking if you wanted to. You could all grunt and squeal so loudly that I couldn't be heard but at the same time that might stop me from speaking."

"I might become discouraged, but I don't believe I'd be as discouraged as all that for I've often had nice talks with myself when all of you have been grunting and squealing."

"What in the world have you said to yourself?" they asked him.

"Oh, I've said, 'Well, Pinky, if you're smart and watch closely out of your right eye you may get more food than anyone else.'"

"And I've said: 'Now Pinky, grab from your brothers and sisters and your parents and your grandparents. Do not disgrace the family name of pig.'"

"And I've said to myself, 'Pinky, young pig never forget that you are a pig! Be a regular pig. Don't be unselfish or generous, don't be anything foolish like that. Be a regular pig.'"

"And I've said to myself, 'there now, if you're quick, you can grab that away from your brother. Hurry now, Pinky.'"

"Such have been the things I've said to myself."

"Well, well, that's different," Grandfather Porky said. "We had an idea, I think, at least I know I had, that you had said quite different things to yourself."

"Yes, we all thought so," said the other pigs.

"What did you think I had said to myself?" asked Pinky.

"Well, I was afraid," said Grandfather Porky, "that perhaps you had

recited poetry to yourself or something like that, and gracious goodness, that would be an awful thing for a pig to do."

"An awful thing for a pig to do," the others squealed. "Yes, we thought when he said he had talked to himself he might have recited poetry," they all squealed and grunted.

"I should say not, I should say not," said Pinky. "For I don't know any poetry except the cradle song my mother used to sing to me. I believe all pigs know it. We don't hear it when we're in the cradle, as pigs are never in cradles, but we hear it in the Pig Sty by our mother's side."

"It goes like this:

"Go to sleep, my little pink pig. When you grow up in the mud you can dig."

Always be greedy, so greedy, my pig. For to be kindly we don't care a fig. Always grab all you can, little pig. Then when you grow up to be very big. You'll be just a nice, fat, greedy young pig. And that will make mother pig's heart dance a jig."

"But I was going to tell you all my idea," he said, "only we got talking about other things."

"Oh yes," they squealed.

"My idea was that when any of you had anything left over you didn't want, you would give it to me because I have such a nice name—Pinky Pig."

And all the pigs squealed that that was the poorest idea they had heard in many a day!

## SEASONABLE GOOD THINGS

This is the time of the year when scrapple is enjoyed. It may be prepared of cold

left of pork, pork chops or bits of the scrapple left from trying out lard.

Scrapple.—Cook corned beef in a piece of boiled pork, or clear water, and add a cupful or more of chopped, cooked bits of pork to the soup. It is turned out into the molds. When ready to serve cut in slices and fry in a little fat.

Carrot Pie.—Take two and one-half cupfuls of cooked and mashed carrots, add one egg, two tablespoons of flour sifted with one and one-half teaspoons of baking powder, one-half cupful each of sugar and molasses, two teaspoons of cinnamon, salt to taste and one half-teaspoonful of ginger with one cupful of milk. Cook in a double boiler until thick. Cool and spread in a baked shell.

Swedish Wafers. Take one third of a cupful of butter, one cupful of sugar, one egg one-fourth of a cupful of milk, one and one-half cupfuls of flour, one-half teaspoonful of salt, one and one-fourth teaspoonfuls of baking powder, one teaspoonful of vanilla, one-fourth of a cupful of chopped almonds and one square of chocolate. Cream the butter, add the sugar, gradually, then the egg well beaten, the flour sifted with the dry ingredients and the milk alternately with the flour. Chill, spread on a buttered sheet, sprinkle with nuts and bake. Cut in strips one by three inches.

Almond Macaroons.—To the beaten whites of six eggs add eight ounces of blanched and powdered almonds. With the yolks of the eggs beat one pound of powdered sugar, add the grated rind of two lemons and a little sliced citron and one fourth pound of flour, mix well together, beat lightly into this the almond whip, drop from a spoon upon greased paper, and bake in a moderate oven until done.

## FIT MATE FOR DARING OUTLAW

Maid Marion by No Means the Least Valued Member of Robin Hood's Brave Band.

Belonging to that shadowy band of characters who hover somewhere in the borderland between fact and fiction, Maid Marion and Robin Hood, whimsical, charming, picturesque people of medieval England, deserve a chapter in the history of happy lovers. Marion was a beautiful, graceful little maid, loving the errant Robin with all her youthful heart. She helped him in his self-appointed task of robbing the rich to aid the poor, and was a thorough little out-of-doors creature. No forest hardships were too much for her. She excelled in archery, was a fleet runner and, in fact, was splendid in every form of sport.

But Marion's family, so the story goes, objected to her union with the country-wide reprobate, and every effort was made to force her to wed a middle-aged man whom she did not love.

However, the jolly band of Robin's followers, by employing their ever-ready wits, succeeded in foiling parental plans. Robin Hood and Maid Marion lived together in the woods many happy years, known always as the enemies of the rich and selfish and the friends of the poor and needy.

## Valuable Word.

Pluck, one of the definitions of which is a word that in its change of meaning has become a favorite child of the language. It was commonplace to begin with—was pluck—a term used in stone cutting and photography, and also as the heart, liver and lungs of an animal; as a verb to pull out feathers, to pull, to desec, to grab at something. After a while the English college boys used it to signify the rejection of a candidate for a degree. Best of all, it came to mean courage, spirit, resolution. We could scarcely get along without the colloquial significance of the words pluck and plucky, while his strict understanding and application thereof has made Uncle Rem what he is today.—Exchange.

## "Yes, Madam, Coats will be worn this Spring"

## COATS OF TWEEDS, POLO.

These are real utility coats. Of soft, basket weave polo and tweed mixtures. Special attention has been given sleeves that set in snugly, or are comfortably loose. Mannish touches as to belts, smartly tailored collars, cuffs and flat pockets, help suggest slim lines. Semi-lined or lined throughout in fine silk, they are in the newest shades of brown, tan and tweed mixtures.

Priced \$13.50 to \$27.50

## ALL WOOL SWEATERS

Dressy and comfortable for out-of-doors, or house wear, these are the genuine all-wool, and of the newest weaves. In the ever-popular Tuxedo, and front-buttoning models, they are tastefully trimmed, with plain or striped, two color, wooly angora collars and cuffs. The colors are rich henna, grays, browns, greens, navy, black.

Priced \$12.50 to \$19.50

## NEW CORSETS FOR NEW COSTUMES

In the newest of models demanded by fashion for giving that youthful trim effect as to bodice, and hip line. Of sturdy, attractive material, not too confining any of them, they give welcome support for dress or sport wear; and yet retain that elasticity and freedom, so characteristic of the new silhouettes. Come in and let our corsetier fit you.

Priced \$1.50 to \$18.00

## GINGHAMS FOR THE YOUNGER SET

Like the first days of spring these newest spring frocks are varied as to styles and so colorful! Simple long-waisted, gathered, or pleated styles, all of them straight of line, they take advantage of the ways of Peter Pan collars, applique or embroidery, to become daintily youthful. Checks large or small, on white or contrasting grounds, as well as the plain chambrays, have such dainty organdie pipings, pretty vestees. The littlest girl may be just as smart as her elder sister, for sizes are from 6 to 16 years.

Priced \$1.75 to \$5.75

## WINDOW SHADES

"Your house is your castle" \* \* \* Don't neglect the freshening effect of new window shades! Let our shade man satisfy your needs in Lonsdale, Holland and Linolene. Priced 85c to \$1.25.

## NEWEST CURTAIN MATERIAL

Of sheer or coarse weaves, marquisette and scrim, have borders of colorful floral designs; in cream or white, with embroidered designs, in self or contrasting colors. Or just plain, these 36 inch curtain materials, are ready for your home. Priced yard 25c to 65c.

## CRETONNES.

Fine quality cretonnes, in tapestry floral, striped and tapestry effects, 36 inches wide, fill a variety of needs. In rich colorings, and brilliant contrasts, they are favored not only as draperies, brightening the largest room, but are most novel for frocks, or collar and cuff sets. Priced Yd. 29c to 69c.

## NECKWEAR THAT IS MOST NOVEL

Still they come! These dainty sets of collars and cuffs, and novel vestees. Lace trimmed, tucked, brightly embroidered, or demurely simple, they have just arrived in nets, gingham, ratine, linens. In the smartest of Tuxedo, Peter Pan, or Puritan styles, and newest combinations of materials, and colors, they will add just the right spring-like touch to suit or frock. Vestees at \$1.25 to \$3.00 Collar and Cuff Sets. 59c to \$1.50

## FOULARD SATEENS

Satiny to the touch, of pleasingly simple designs, on dark and light grounds, with contrasting colors, are these fine quality, 36 inch wide sateens. Used as novelty linings, they will be most popular, and for frocks, they are unequaled for their durability and draping qualities. Priced Yard 50c

## NOVELTY GLOVE IMPORTATIONS

These gauntlet models, in the softest, French kid, are the last word in dress gloves. Novel cuff effects, wrist straps, contrasting bandings and embroidery, in spring colors, and combinations of mode and champagne, they are specially worth your attention. Price \$3.00 to \$3.75.

## SILK AND COTTON VOILES

Unusually pretty as to design and color combinations, are these sheer, silk-striped voiles, 36 inches wide. Odd checks and dot, or scroll and floral motifs, on contrasting grounds, might be draped in many of the new dress styles. Blues, browns, green, helio. Priced Yard \$1.00

## NEW MADRAS SHIRTS

Just seeing these fine, durable quality Madras Shirts will convince you that they are just what you need for general wear. Very good-looking are the pencil-striped, or quiet-toned broader-striped models, with box-fronts. Sizes 14 to 16½. Priced \$2.50.

## USE TWO FABRICS

Double Effect in Dresses is Emphasized by Paris Makers.

Results Are Widely Different From the Slender Draperies; Embroideries Are Absent.

A feature now much in evidence in dress is the development of models in two fabrics, writes a fashion correspondent in the New York Tribune. Callot is one of the foremost makers to emphasize the new double effect seen in so many dresses which appear to be made of one material over another.

These clothes are particularly interesting because they are so different from the usual Callot styles. Here effects are achieved widely different from the slender draperies so typical of this house. Even the wonderful Callot embroideries are absent, but, as of yore, this famous couturiere depends on the fabric for her results, and upon wonderful color combinations for rich effects.

To show that suits are no exception to the mode of uniting two colors in one model a typical tailored suit is of black cloth with bands of black lamb's wool bordering the jacket and forming cuffs and a collar. A

Black Cloth Suit; Green Cane Braid. Bright touch of color is given through the use of broad bands of bright green cane braid.

With this is worn a Rebour fabric hat with upturned brim and straps of the material passing through a hole ring to make a wing-like ornament. The hat is especially appropriate to wear with this suit, as the jade combines pleasingly with the green trimming on the jacket.

## FABRICS FOR THE LINGERIES

Radium Silk Ranks Well With Crepe de Chine—Chiffon and Georgette Are Popular.

Radium silk is vying with crepe de Chine for the place of greatest popularity in the making of lingerie. It has much to recommend it in the way of its wearing ability. Then it has that crisp softness of surface which is so excellent a foundation of the sort about which we have just been talking. And it has a quality of making handwork, even the smallest portion of it, look so much more than it really is. Hand stitching upon the surface of radium stands out most effectively, and any one who has ever done any of it has the extreme satisfaction of seeing her efforts show forth in a strong highlight.

Chiffon and georgette crepe have by no means been slighted in the designing and making of lingerie this season. They have not that quality of making a firm foundation, but for other sorts of frocks and for certain types of wear they have nothing to equal them. Then there is just this about the chiffon undergarments—they slip into the easily washed class remarkably well. The ironing necessary to put them into shape after washing is almost all. They press or pull into place with the greatest of ease. And, while they have every appearance of luxury, and extravagance even, they still hold in reserve that ability to adapt themselves to frequent cleaning in a way that the heavier silks cannot do.

Collars Are Flat. Regardless of the elaborate intent of the suit, the favored collar finish—and one that is borrowed from the models of more simple and tailored conception—is the convertible design that stands erect in unpretentious fashion, and lies flat much in the outline of a gentleman's tennis shirt collar.

Sege Green. Sege green taffeta is a favorite medium for dance frocks this season. Perhaps because its delicate brilliancy takes so well to colorful feather fans and artificial flowers.

## "A BLESSING IN DISGUISE."

The past few years will go down in local history as the days of the great rent drive for any householder who has not had his rent boosted is entitled to a place in a museum or else to his own landlord. Without going into the merits of the case the increase in rents while it has been, and is a hardship for many has yet proved a blessing in disguise for others.

There has never been a time in the city's history when there was more activity in real estate and within the past few years more houses have changed hands than ever before. The large number of sales cannot be attributed to the fact that the average householder has awaked to the fact that he would be much better off as his own landlord, but should largely be laid at the door of higher rents.

Increased rents and the uncertainty of the renter in not knowing when he would be forced to seek other apartments has led him to seriously consider the problem of owning his own home. Ways and means were discussed in the family circle and the great decision made.

Buying a home has brought forcibly to the mind of the householder that it is possible to save money when compelled to do so. Compulsory saving has not only restored a sane balance to the family budget, but it has developed the art of saving. For some people the saving of money is an easy problem, but to the large majority of people it is an art that must be painstakingly acquired. Once acquired, however, and it is not so easily forgotten.

There is no question but that in many households the rent problem is a serious one, and will continue to prove one, but on the other hand it has assisted many families to the position where they can snap their fingers at the high rent ogre.

Habits of thrift when acquired are not lightly cast aside, and for that reason, if for no other, the days of the great rent drive have proven of some benefit.

## DISTRUST OF PHYSICIANS.

Dr. A. C. Crofton of Chicago writes to the Journal of the American Medical Association that the old-time confidence in the wisdom and character of the medical profession has waned because of the "cold wedge" which health centres, medical groups and super-specialists are driving between the patient and the physician, because of the increasing spirit of commercialism in the profession, because of questionable practices, including needless surgery, unnecessary "diagnostic fussing" and unduly prolonged treatment, in hospitals and out of them. "It is very easy to be crooked," he writes, "and the difference between straight and just a little crooked can make an enormous difference in the professional income." As a consequence in his opinion, "the public is coming to assume an attitude of somewhat amused suspicion toward the doctor, and to contemplate acts of self-defense." This accounts for the opposition to legislation in favor of the profession and the fear of a "medical trust."

It may well be doubted whether confidence in reputable physicians of proved devotion and character has been shaken by any or all of these things. But there are indications of an undermining of public confidence in the medical profession generally from another cause—the sharply divided view among reputable physicians as to the usefulness or harmfulness of alcohol in medical treatment. After inquiring of 53,900 American physicians, the Journal of the American Medical Association recently gave figures showing that a majority of city doctors hold and a majority of country doctors deny that alcohol is "a necessary therapeutic agent." This not only tends to strengthen the evidence that medicine is not an exact science but furnishes reasonable ground for the suspicion that medicine is not independent of politics.

Dr. Crofton suggests the creation for the medical profession of a sort of Court of Appeals, such as is already possessed by other professions, and by the army and navy and epidemic bodies—a court to which the public could carry its real or imaginary grievances against physicians, with the assurance that their complaints would be carefully investi-

gated and that action would be taken in the nature either of a wholesome reprimand or of deprivation of license to practice when the proved facts warranted such action. If a court of the kind suggested could be established and prove itself capable as well as trustworthy, there might be beneficial results. But it rather looks as if what is most urgently needed at present, for the strengthening of confidence in the medical profession, is ability on the part of reputable American physicians to get together on the question of the use or non-use of alcohol in medical treatment.

What do you want to know about Nature Subjects? Send any questions of general interest to the Nature Notes Department of this paper. Look for answers in this column.

## Can You Answer These Questions?

1. How long will "Actias luna" or "Tropaea luna" take to hatch from the chrysalis if kept indoors at an even temperature?  
2. Do any birds but pigeons feed their young by regurgitation?  
3. I read in the paper some time ago that an attempt was to be made for a man to go to the moon on a rocket. Was it ever tried and did it succeed?

## Answers in Tomorrow's Nature Notes.

## Answers To Previous Questions.

1. Is the allanthur tree free from insect pests?

Pretty free from many common caterpillars, but it is the special, and only food of the cynthia moth, an import from Asia, whence came the tree also. This moth makes its cocoon with the aid of a curled-up leaf.

2. Are pigs naturally filthy?

No, in a wild state they are clean. "Wallowing in the mire" becomes a filthy trick only under artificial conditions, when the pig cannot get fresh, clean mud to coat itself as a protection against flies and vermin. The pig has a scantily-furred hide and wants the protection of the mud coat at times. Cattle and bison also use a mud coat against flies, but roaming free, they can find clean mud.

3. Do birds sleep all night?

The amount of sleep they take depends on season and on the demands of their daily life. In midwinter they sleep a full fourteen hours, having little to do then except find their own food. In spring and early summer, when occupied with nesting duties, they make a long and strenuous day. Robins for instance, will be seen at work in June shortly after 3 a. m., and will be stirring up to eight p. m. Probably the long hours of light as well as duty keep them active.

## OUR DAILY PATTERN.

A Comfortable Work Dress.

Pattern 3750 is here portrayed. It is cut in 7 sizes: 31, 34, 36, 40, 42, 44 and 46 inches bust measure. A 38 inch size requires 6 yards of 36 inch material.

Repp, linen, calico, lawn, gingham, flannel, poplin and gabardine may be used for this style. Width of skirt at lower edge is 2 yards.

A pattern of this illustration mailed to any address on receipt of 12c in coin or 1c and 2c stamps by the Pattern Department, The Freeman, Rondout, N. Y. Be sure to state the size wanted.

## Making a business of high quality

YOU know perfectly well that the value of things you buy isn't in what somebody says about them; the man who bought the "gold brick" bought it on what somebody said

Quality isn't just a word; it's a fact; you don't get it in clothes unless it's there

Hart Schaffner & Marx make a business of putting quality in clothes; materials, making, smart style.

We make a business of selling that kind of merchandise. We could sell cheaper stuff at lower prices; stuff that's lower priced because it's cheaper quality. We don't sell it because our customers really don't want it; no "gold bricks" here.

## ACCORD.

Accord, March 8.—W. H. Rose, who occupies the farm near the Reformed Church property, will have an auction on Wednesday, March 15, at 10:00 a. m. Four horses, several heifers, pigs, chickens, a threshing machine and many farm implements are among the things listed for sale.

Eight persons united with the Reformed Church at the communion service last Sunday.

The Ladies' Aid Society of the Reformed Church, which includes all the ladies of the congregation, will meet at the church parsonage on Thursday, March 16, to spend the entire day in sewing. All those who can contribute rags, are requested to bring them to this meeting so an all day meeting each one present is expected to bring her lunch.

Local church matters were discussed at a conference which was held at the home of Walter Davenport Monday evening.

Josee D. Sohler has sold the house along the state road now occupied by him to W. H. Rose.

Alton Dancy has moved from Minbrook to Monticomb.

Mrs. Russell Lawrence of Newburgh, is visiting friends at St. John.

Mr. and Mrs. Claude Lyons spent Sunday with Mr. and Mrs. J. S. Dancy.

H. Westlake Coons of Ellenville, was a caller in town Saturday.

Ell Addie and son John, who have spent the winter at Pacific, N. J., have returned home.

Louis Glaser and Nathan Perl have

returned from a trip to New York City.

The many friends of Mrs. Elizabeth Lawrence are sorry that her improvement is very slow.

Miss Helen Lawrence, the teacher of the Pine Bush school, is ill at her home.

Mr. and Mrs. Rancus Smith spent Tuesday at Kingston.

The melting snow and Tuesday afternoon's heavy down-pour of rain made the streams dangerously high Tuesday. For a time the waters of the Rondout creek covered the road near the Mombacrus bridge.

D. E. Schoonmaker and A. L. Sahler motored to Sullivan county points Monday.

Mr. and Mrs. David Depuy of Mettachons drove through town in their new outfit Wednesday.

The Farmers' Cooperative have received a car of cracked corn.

Sam W. Davis is erecting a brooder house.

Local fishermen are beginning to catch suckers out of the Rondout creek. It seems that fish are almost as valuable as calves, for it is a fact that one of our local people actually traded a calf for three suckers. Needless to say there must be something wrong with the dairy business.

## NEW HURLEY.

New Hurley, March 8.—Mr. and Mrs. Herbert Gerow spent Sunday with their aunt and uncle, Mr. and Mrs. Peter Wilkin.

J. J. Sherwood has purchased a new house of Clarence Chambers at Monticomb.

Miss Esther Terpening was able

to resume her school duties on Monday, after a week's illness. Mrs. Perry DuBois substituted at school last week.

The Circle will meet with Harold Tenney on Thursday evening, March 16, at 8 o'clock. All young people are cordially invited.

## ULSTER COUNTY POMONA GRANGE

Shows Officers and Listens to Reports Showing That All Is Well—Resolutions Disapprove C. A. A.—Ask More State Troopers and Uphold Volstead Act.

The meeting of Ulster County Pomona Grange was held in the Grange Hall at New Paltz on Friday, March 3, opening at 10:30 a. m.

In the morning the reports from subordinate granges were given. Some of these were very interesting. Stone Ridge reported that they have eight hundred dollars in the treasury and are building an addition to their hall. Mr. Sabler, the G. L. F. agent at Stone Ridge, reported sales amounting to between twenty and twenty-five thousand dollars.

Lake Katrine reported social meetings held outside their regular grange meetings. To these social gatherings each one brings a friend.

Asbury Grange seems to be doing things. They have a degree team. They have just put in a new hardwood floor. They have new lights, a new oil stove, new regalia and desks. They are giving dances to raise money to pay for the regalia and desks. They have an attendance of from forty to sixty. They are also starting a G. L. F. organization.

Mount Tremper Grange reported the purchase of a cook stove and a Victrola.

Deputy Weaver in his report spoke of community spirit. The grange should help in building up the community. He commended Lake Katrine for their social gatherings which increase community spirit.

A letter from State Master Manning regarding the impending coal strike was read. A discussion followed. Later in the day a resolution was passed urging that the miners consider the welfare of humanity and settle their difficulties by arbitration.

At this point the meeting was adjourned until afternoon.

The first business of the afternoon was the obligation of eight candidates.

Next the delegates to the State Grange session held at Binghamton February 6-10 gave their reports. Mrs. Sherman of Stone Ridge reported the first day of the session.

Clarence Finger of Asbury the second. Mrs. W. E. Harcourt of Clintondale, the third, and Mrs. Davidson of Mt. Tremper, who was unable to be present, sent a report of the last day. L. C. Barnes of New Paltz, delegate at large, also gave a short report. There were one thousand in attendance at the State Grange, seven hundred and ninety of whom were delegates. National Master Lowell reported that the slogan of the Ohio State Grange is: "Beat New York." Ohio has 105,000 members. New York 140,000.

The State Grange voted to continue twelve scholarships at Cornell. All Grange members urged to support the G. L. F. Resolutions were passed favoring Sunday observance, upholding the Volstead act, opposing the building of the St. Lawrence ship canal, and favoring an additional number of state police.

Next a talk was given by W. P. Wells, who has been going about the country speaking before Pomona Granges in behalf of the Near East Relief Fund. He spoke very practically and appealingly, telling of the very great necessity of food and clothing, especially for little children in the Holy Lands. Many of the children are starving and have no clothing. Many are the victims of disease.

He urged that each Grange adopt one or more of these children and care for it for a year. Five dollars a month or sixty dollars a year will feed and clothe a child.

At the close of this talk, a resolution was passed endorsing the work of the Near East Relief Association and recommending that subordinate Granges support it as far as possible.

When this resolution had been passed Mr. McCormick, master of Pomona Grange, said that he thought Pomona Grange should not recommend anything to other Granges that it was not willing to do itself. Several members at once offered to give a dollar toward the support of a child. The hat was passed and forty-three dollars and ten cents was collected. It was decided to take enough more out of the treasury to make up the sixty dollars which it costs to care for one child for a year. It is hoped that many of the subordinate Granges will do as well.

Brother Sherman of Columbia County was ill and unable to come. He left his officers. Brother I. C. Barnes very kindly took his place and ably installed the officers in the new hall where it had been done by National Master Lowell at the State Grange meeting. The officers installed were:

Master, C. E. Davis of Lake Katrine; overseer, Harold V. Story of Ulster Park; lecturer, C. F. Faber of Milton; steward, James Conklin of Milton; assistant steward, Walter Hasbrouck of New Paltz; chaplain, Mrs. C. C. Hardenbergh of Stone Ridge; secretary, Louis D. Sabler of Stone Ridge; gatekeeper, Merritt Relyea of Asbury; Pomona, Margaret Jansen of New Paltz; lady assistant steward, Mrs. I. C. Barnes of New Paltz.

The new treasurer, Frank Terhune; Flora, Mrs. A. P. Wilklow; and Geres, Mrs. J. W. Alsdorf, were also present.

A resolution was passed in support of the bill opposing the sale and manufacture of filled milk. Filled milk is a manufactured product which is often sold in the place of real milk.

The new master appointed the following committees:

Executive—A. P. Wilklow, W. E. Harcourt, James Gaddis.

Finance—Fred DuBois, Russell Martin, Clarence Finger.

Lecturers—Frank J. LeFevre, C. C. Hardenbergh, C. C. Demond, Edward Young, Mrs. Wells.

The next meeting will be held at Mount Tremper in June.

### ROUNDOUT LODGE VISITS CATSKILL

Local Masonic Lodge Pays Fraternal  
Visit To Greene County Brethren.  
And Centers Master Mason De-  
grees—Fraternal and Smoker Fol-  
lows Plans, Clerk.

Wednesday evening the officers and members of Roundout Lodge No. 211, I. O. O. F., paid a fraternal visit to Catskill Lodge of Masons, and the officers of Roundout Lodge conferred the Master Mason degree on a class of four candidates in fraternal style. The event will long be remembered by the several hundred Masons who attended the entertainment that evening.

The members of Roundout Lodge gathered at the rooms in the Masonic building, Broadway and Clinton, shortly after 6 o'clock, and after the trip to Catskill was made, a number made the trip in their own cars.

The local Masons when they reached Catskill found that Catskill Lodge had not, and that was a Masonic Temple with large rooms, banquet hall, and kitchen on the second floor, and billiard room, restaurant and parlors on the first floor. The Catskill Masons were congratulated by the visiting brethren on the fine appearance of their building.

Roundout Lodge, which had been invited by Catskill Lodge to pay the visit and confer the Master Mason degree, turned out nearly one hundred strong, and the officers and degree team of the lodge put on the third degree in fraternal style. The fact that Roundout Lodge was to confer the degree that evening had attracted Masons from many other

lodges in the vicinity of Catskill who attended the meeting.

Following the conferring of the degree Roundout Lodge was entertained at a banquet in the large banquet hall, and at the close cigars were passed and a smoker enjoyed. One of the enjoyable features of the evening was the fact that no speeches were inflicted during the serving of the banquet or afterward.

It was early this morning before the members of Roundout Lodge reached their homes after one of the most pleasant fraternal evenings enjoyed in some time.

Monday evening the lodge will confer the entered apprentice degree on a class of candidates, and Monday evening, March 20, the Master Mason degree will be conferred.

### BILL LETS STATE ACQUIRE OLD KNOX HEADQUARTERS.

By Telegram to The Freeman.

Albany, March 9.—(Special.)—The assembly has passed the bill by Assemblyman Arthur Brundage of Newburgh, which permits the acceptance by the state of the historical Knox headquarters, located in the town of New Windsor from the Knox Headquarters Association, Inc. The land to be ceded to the state comprises approximately fifty acres of land which was occupied during the Revolutionary War by Generals Nathaniel Green, Henry Knox and Horatio Gates.

P. T. School No. 5.

The Parents-Teachers' Association of School No. 5 have completed arrangements for their miscellaneous sale, which will include home made cake, pies, canned goods, also aprons and fancy articles, at the school on Friday evening, March 10. An entertainment at 7:30 will precede the sale. Ice cream will be on sale and a pleasant evening can be looked forward to. Proceeds will be used to purchase a piano for the primary department.

### EXTRA JURORS FOR SUPREME COURT

Twenty extra jurors were drawn from the county box to appear Wednesday morning in supreme court which is in session at the court house with Judge Rosch presiding. The following names were drawn: Albert C. Bott, Kingston; John Dorsey, Kingston; William F. Dunneman, Kingston; Willis Eckert, Olive; Isaac Faber, Kingston; Paul Fitchner, Shandaken; A. R. Holmser, Woodstock; Augustus Kohler, Kingston; Herbert Mackey, Lloyd; Thomas McMan, Marlborough; Ernest Middlesteadt, Roseville; William H. Morehouse, Saugerties; Edward Osterander, Esopus; Christopher Schline, Kingston; Robert W. Secor, Olive; Selah Seiden, Rochester; Sherman Short, Woodstock; John Siskler, Woodstock; Henry Wright, Denning; George Young, Ulster.

Albert C. Bott was excused until next Monday in order to attend to his business, which is that of a barber. Next came John Dorsey, also a barber who desired to be excused. Judge Rosch having already excused one barber for this week asked Mr. Dorsey if it would not adjust matters if he kept him this week and excused him next week. This would give the people a barber both weeks and still leave one for jury duty. Mr. Dorsey remained for this week.

Augustus Kohler, Paul Fitchner, Thomas McMan and Sherman Short were excused by the court, when they presented legal excuses. Mr. Osterhous was also excused and his name taken from the box.

### Meetings at Baptist Church.

The week of prayer services continue this week at the Albany Avenue Baptist Church. While the union services on Friday night will not be held owing to the inability of Mrs. Peabody to be present, a prayer meeting will take its place at which the topic will be, "The Man Who Had Nothing to Say." Evangelistic services will begin Sunday night and will continue on Tuesday, Wednesday, Thursday and Friday evenings of next week with other pastors helping. Sunday night will be home night, when people are asked to attend in family groups. The sermon topic will be "Christ in the Home," and the service will be informal and popular in character.

### MOVE TO UNITE ACCORD CHURCHES

Should the Dutch Reformed and Methodist Churches of Accord unite? This is the question that has been pressing to the fore for some time back, and is now uppermost in the minds of an ever increasing number of people.

With the burning of the church building of the Dutch Reformed people, this question has been taken up with renewed zeal. Accord and surrounding communities have been gradually changing, due to many old pillars of the churches dying off and others selling out and moving away. Realizing this trend of things, people are asking: "Does Accord and vicinity need two Protestant churches? And, since one of our church buildings has burned, is not this the logical and opportune time to take up our church problem and endeavor to find a solution?"

A person is scarcely to be found who actually believes that both churches are needed in Accord. The belief that one Protestant church would be adequate is generally expressed. Then let us take up this question and in real earnestness and unbiased sincerity endeavor to secure a united church for our community.

How long is this age-old rivalry between the churches to continue? Does it really represent true religion? Is it not the very nature of religion to unite people in a bond of love? Then why continue to perpetuate divisions in a small community like ours? The question St. Peter will ask at the pearly gates is not were you a Methodist or were you a Dutch Reformed, but did you live in love with your neighbors? That's the test, we will all be judged by.

What community is going to be big-hearted and broadminded enough to solve this problem? Look upon our beautiful Rondout valley, of which we are justly proud, but even in this beautiful valley every community has this same old aggravated church problem. They are all giving to the world a most unseemly spectacle of divisions, rivalry, and competition among the Protestant churches. How long is this kind of thing to continue, and especially in the name of religion?

This church problem is not going to solve itself. It must needs be taken up deliberately by the people. Accord has an opportunity to do this at this very time. Some community must make the venture and blaze a trail for the new day we all crave for. If Accord and the adjoining communities have a heart and a mind to solve this church problem they will not only bless themselves, but every community in this valley will be encouraged thereby. If we do not grapple with this problem now, the possibilities are that another generation or two will go by before another situation arises as favorable as the one in which we find ourselves now. This appears to be the providential time. So let us bury the hatchet of personal ill-will and family feuds and in the name of God, who is the God of love, get together as brothers and sisters in one flock and in one fold.

A committee of the community at large has met and voted almost to a man to labor to unite the Accord churches. This committee wishes to have the people of Accord and vicinity to consider the matter in a real unbiased and unprejudiced manner. Opportunity for public discussion has been arranged for on Monday, March 13, at 2 P. M. in the Accord Odd Fellows' Hall. If stormy next fair day. This will be a meeting that will have to do with the future destiny of things. There will be speaking and open and free discussion for all. Whatever we may decide to do about this church problem let us at least definitely plan to attend this meeting.

### He beat the train to the crossing a good many times

"It's never touched me yet," he explained when they pointed out the risks.

That's the answer a good many people make when they hear that the drug element in tea and coffee often harms nerves and health. They say it's never touched them yet.

Sometimes they only think it hasn't.

Wakeful nights, drowsy days, headaches that keep coming more frequently—often are blamed on bad luck when the blame belongs on bad judgment in taking needless chances with harm.

Over on the safe side is Postum, a pure cereal beverage, delicious and satisfying—containing nothing that can harm nerves or digestion. Thousands who used to try their luck with tea or coffee are enthusiastic over having found safety and satisfaction in Postum.

It's worth your while to make the test with Postum for ten days. Postum is a delightful drink for any member of the family, at any meal.

Your grocer has both forms of Postum: Instant Postum (in tin) made instantly in the cup by the addition of boiling water. Postum Cereal (in packages of larger bulk, for those who prefer to make the drink while the meal is being prepared) made by boiling for 20 minutes.

### Guard Yourself and Protect Others Against the Flu

Avoid crowds, sleep with your window open, at the first sign of a cold, fever and sore throat, or that Grippe feeling, commence taking Heneph's Cold & Grippe Tablets, that contain no acetanilide to weaken the heart, and apply Heneph's Red Salve Liniment. Nightly applications of Red Salve Liniment will aid nature in relieving inflammation. Because Red Salve Liniment acts locally by stimulation, through the skin to draw out the inflammation, attracts the blood away from the congested spots and relieves the pain. In addition, the medical ingredients of Red Salve Liniment are vaporized by the body heat. These vapors are breathed in all night long, bringing the medication to bear directly upon the inflamed areas. These two preparations are being sold at the price of one at all dealers for the month of February. They are two well known remedies and should be in every home as a relief and preventative of Cold & Grippe and Influenza. A 50c jar of Red Salve Liniment free with a 50c package of Cold & Grippe Tablets. If your dealer does not have them send direct to Heneph Co. Inc., Kingston, N. Y.

## Globe-Wernicke AGENCY

Phrases Recalled.  
Coming in our grandmother's days was a little knitted jacket named after the famous singer. A rigolette was a scarf for the head, sometimes edged with a band of lace or a cloud, and a rigolette was a far piece for the neck. This expression "the real clever" meant something entirely different from the compliment it would now convey. It was a sort of half-giving explanation for a well-to-do business woman, who nevertheless had good qualities. When we were dressing our old aunt used to say: "You must piece a piece on that," which seems somewhat superfluous. But many changes are so gradual that we hardly notice them. For instance, when did we all stop saying electric car and adopt trolley, and substitute station for the old-time depot? We are not conscious of making any change; we only realize that now it sounds odd to hear anyone use the old terms.

**Snow Is Radio-Active.**  
Constance and Negro have published a resume of the results obtained by them in a study of the radio-activity of snow which fell at Boudreaux last winter. It has been known since 1894 that new-fallen snow is radio-active, but the subject has not received any very great amount of attention. In this case the investigators announce the following conclusions: New-fallen snow quickly gathered after its descent to the earth is highly radio-active; radio-activity disappears almost entirely after the lapse of two hours; snow that has fallen on the soil appears to retain its radio-activity a little longer than that which has fallen on a bare surface; the radio-activity of snow is not affected by the rays of the sun.

## COLUMBIA GETS ANOTHER SHOCK

Anonymous College Publication Gives Directions for Things Not Included in Curriculum.

By Telegram to The Freeman.

New York, March 9.—Staid Columbia University professors today received a shock when they opened their copies of the "Black & Blue" book, an anonymous campus publication, and found therein specific instructions to men students on how and when to "pet," how to care for a fraternity brother found in an intoxicated condition, how to pick "snaps" and "easy" professors and other information designed to lead the student to the "perfect life."

The book's editors, identified as Contempt of Court and St. Loyola, point out in an introduction that the "compendium of information" is properly digested, will guarantee the success of any man's college career.

Apparently the editors failed to take into consideration the reception which the book may have with legislators in outlying districts who consider Columbia too risqué a place to send their women school teachers for absorbing knowledge in the summer seasons. The summer term is described as "a good opportunity to make six or eight points easily if you select the right courses," and to meet the 10 per cent of the female population who are not "elderly school teachers."

"Petting," the book says, "is the most enjoyable intercollegiate sport, with the exception of taking a girl to a swimming meet. It is axiomatic that every girl pets; it is merely a matter of discrimination and degree. Many a woman who insists on privacy when she powders her nose, will let you ruin her hair next."

"Always pet in darkness, the instructions say, 'not so much because of modesty, but of imagination. This will also prevent being caught in an embarrassing clench if father returns home unexpectedly for the other quart.'

Included in "general instructions" are the following:  
"Do not drape your arm around a girl's shoulders as it makes her nervous. In a taxi-cab this discomfort may be alleviated by holding her in your lap. The touch as in typewriting, should be light. Running your fingers through her hair is also very effective."

"The two main requisites to a petting party are a clean shave and a clean handkerchief."

The content of the last page of the fifty-page booklet will be gladly received by Margot Asquith as it upholds her assertion of the failure of prohibition in the United States. It is a blank to be filled in with the proper names and addresses and carried in the male collegian's billfold. It reads like this:

"If the bearer is found intoxicated, please deliver to . . .  
My key is in lower right vest pocket. Third floor, front door to right. Bathroom in rear. Collect taxi fare from . . . in large bed near window. Flask in right hip pocket. You are welcome to what's left."  
The entire issue of 900 copies was sold on the campus at 25 cents a copy within five hours after publication. The editors prepared for a reprinting but Dean Hawkes of Columbia College, learning of the plan, ordered the publication "squashed." Zealous holders of the 900 prized copies were evicted today over their less fortunate fellow classmen.

### Valuable Tablecloth

Guests at a formal dinner once given by Mrs. Andrew Carnegie in New York were surprised when, after the last course, the butler passed a pencil to each, and their hostess requested that every one write his name beside his plate, save the Delineator. Afterward, explained Mrs. Carnegie, the cloth would be carefully removed and given to an embroiderer who would "do" the signature in outline stitch. Famous names were already embroidered at each place—Thomas Edison, John Burroughs, Philip Gibbs. The cloth formed an interesting souvenir of guests who had broken bread at this famous hostess' table.

### Some Salesmen

Ed had a brother who owned a market. On Saturday it was Ed's delight to help in the store. One day a neighbor chanced in and finding Ed there she asked, seriously: "Have you chicken today?" "Sure," responded the youngster, "we have all kinds, alive, dead, dressed and undressed."

The National Art Novelty Co., Chicago, Ill., have appointed Tom Chait away, 27 Linderman avenue, Kingston their sales representative. The line consists primarily of Advertising Calendars, which are entirely different from the ordinary calendar, that they are kept long after the year expires. Prices and Samples without any obligation.

### Ocean Giants

The great whalebone whales, the bulk of which exceeds that of any other living animal, have developed their remarkable whalebone to sift small creatures upon which they feed from the sea water. An exact parallel is to be found in the largest sharks, the basking shark of northern seas and the whale shark of the Indian ocean, the teeth of which are small and of no account, but the highly developed gill-rakers of which form a fine mesh net for the capture of small shrimp-like animals which abound in the sea. These great sharks reach a length of 40 feet or more and are enormous compared with anything but a whale.

### Luxemburg Independent

Luxemburg is an independent state, its neutrality and independence were guaranteed by France, Prussia, Russia, Austria, England and Holland, whose representatives signed the treaty of London, May 11, 1867. It has been a grand duchy since 1814; from that date until 1890 it was governed by kings of Holland as grand dukes, though distinct from the kingdom of Holland. In 1890 it passed to the house of Nassau. It was formerly a member of the German confederation and was included in the German customs union.

## We Blended Palm and Olive Oils

To beautify your hair

This free 15-cent trial bottle contains ample quantity for one luxurious shampoo, no matter how heavy your hair. Use it and watch results.

See how soft it makes your hair, and how fluffy. Admire the attractive, well-groomed gloss.

Notice how clean it leaves your scalp, how all scurf and dandruff are completely removed. Ordinary shampooing doesn't get these results. They are due to palm and olive oils.

### Softening cleansers

Olive oil possesses softening qualities which neutralize the drying effects of washing. Palm oil contributes body, richness and lasting qualities.

In combination they produce a thick, mild, profuse, penetrating

lather which softens the scalp and reaches every root and hair cell.

This lather loosens the dandruff scales, dislodges and dissolves them, leaving the scalp and hair free to function healthfully.

### Prevents Baldness

This thorough removal of dandruff, which doctors call seborrhea, is most necessary, as even the accumulation on healthy scalps injures the hair.

The dry, oily scales clog the roots of the hair, preventing proper nutrition. Soon the hair begins to fall out. Ordinary washing has little effect, often seeming to make the condition worse.

The blend of palm and olive oils you get in Palmolive softens and penetrates the scales, loosening the cap-like accumulation.

Gentle massage forces it into the tissues of the scalp, leaving it healthily purged and clean.

### Silky texture and satiny gloss

Such scientific shampooing is the basis of beauty, for it keeps both hair and scalp in perfect health.

It stimulates circulation, which carries proper nourishment to your hair. It regulates the minute oil glands which give your hair gloss and luster. Hair shampooed with Palmolive is neither brittle nor oily, but soft, glossy and silky.

Present the coupon at once and prove that these statements are true. One shampoo with the blend of palm and olive oils begins the transformation.

## 15c TRIAL BOTTLE FREE

Present this coupon, with your name and address filled in, to any dealer. It is good for a 15-cent trial bottle of Palmolive Shampoo.

CITIZENS' LEAGUE  
MEETS MARCH 22

The twelfth annual meeting of the Citizen's League of Ulster county will be held at the Dr. C. O. Sahler Sanitarium, Wednesday, March 22, at 11 a. m. After the business is transacted there will be addresses, both before and after dinner, which will be served at 1 p. m.

Among those who have signified their intention to speak are Judge J. M. Fowler, District Attorney F. G. Traver, Mayor W. P. Lyons, City Judge Schirick, Chief of Police Wood, Dr. Chandler, and the Rev. Dr. F. H. Soder.

The idea of the Citizen's League is to bring together the officers of the county and of the city, who stand for enforcement of law, that they may show the citizens of the county how they can assist in enforcing all law, especially the 18th Amendment.

All citizens of the county, without reference to religious or political creeds, who desire to see the law enforced are cordially invited to attend.

Further notice will be given, but any who plan to attend will do well to communicate at once with the Rev. P. N. Chase, 15 Green street, Kingston.

When you get a girl, be careful whose girl you get.

College graduates make the best chorus girls, Flo Zeigfeld says. Probably because they have better understanding.

Henry Ford wants to abolish money. Money? Money? Seems like we do remember something by that name.

We don't like this term, "Flapper," applied promiscuously to girls. Not all girls are flappers, but so far as we have been able to discover all flappers are girls.

Perhaps women's minds are clearer than men's because they change them oftener.

## GARDINER.

Gardiner, March 9.—Another big surprise party, this time at Breedy Oak Cottage, home of Mr. and Mrs. Wenz. On Friday evening, March 3, a large number of friends and neighbors stole up in the darkness of the night and in the shadows of the old oak tree and there waited for the signal that all were ready.

Then a great stampede was started over the long piazza for the dining room door. In the mad rush and excitement to get in first, two of the party got wedged in the door and were released with much difficulty by John Stemer and several of his sons, who had to remove the door jams to free them. The rest of the party entered without any objections from Mr. and Mrs. Wenz, who were sitting very quietly reading the Kingston Freeman and who were so surprised they could not say anything or even pull their revolvers.

After all the good things the ladies had prepared to eat and brought with them were put on the table, not saying anything about the freezer of ice cream that was left outside.

By this time Bob had regained his speech and said, "Go to it, boys; have a good time and go as far as you like." That seemed to give the starting point and a good time it was. Floyd McKinstry was elected dancing master, with Miss Emma Schwarz and Verna Shreeley furnishing the music. Frank D. Shreeley was called upon to do the heavy work, such as taking up the carpet and carrying out the stove to make room for the dancers. Most everything was danced from Paul Jones to the Canary Jazz, with Gilbert Bevier carrying off the honors.

After this the refreshments were served by the willing waiters, Richard and Charles Stemer and Donald Hamilton. By this time light streaks could be seen shooting up in the east and everyone was sorry the time had come to go. And everyone refused to go until Al McKinstry had sung their favorite song, "In the Shade of the Old Apple Tree." Then everyone arose and gave Mr. and Mrs. Wenz a rousing cheer of thanks for their kind hospitality in allowing them to have so good a time and then wishing Mrs. Wenz many happy returns of the day as they just found out the morning was bringing her birthday.

## Big lasting suds

—they give the water

a "soapy feel" all through

Put your hand in a tub of Rinso suds. You can feel that the water is actually soapy all through.

This is one reason why Rinso soaks clothes clean without hard rubbing.

Many bar soaps make frothy, foamy suds. But they disappear when you put the clothes into them, leaving the water as if soap had never touched it.

Rinso suds work down into every fold and fibre,

loosening the dirt, without weakening a single thread.

Just a light rubbing with dry Rinso on cuff edges, neck bands and the like, gets them clean—the dirt is so loosened.

Be sure to use enough Rinso to get the big lasting suds, that give the water a soapy feel all through.

Rinso is made by the largest soap makers in the world. It is sold everywhere. Get Rinso today—at grocery and department stores. Lever Bros. Co., Cambridge, Mass.

Rinso does the family wash as wonderfully as Lux does fine things

AT OUR STORE

Your dynamite dollar—

—is now worth \$1.35

WE will sell you 135 to 140 sticks of Dumorite for the same money you now pay for 100 sticks of 40% dynamite.

Dumorite, the new Du Pont Farm Dynamite, has approximately the same strength as regular 40% dynamite and gives you equal work, stick for stick, under ordinary conditions. Thus Du Pont engineers have found a way to give you 33% more dynamite for your dollar.

You won't get a "dynamite headache" from using Dumorite and it will not freeze.

Think—this year, with Dumorite, you can clear nearly 1/3 more acres of stump land at the same cost you paid last year for dynamite, or you can clear the same amount as in 1921, at a saving of approximately one-fourth.

Let Dumorite help you make 1922 the biggest land clearing year of all—and let us help you figure the cost of your season's blasting work. We know that we can save you about one-fourth—maybe more.

## TOOTHBRUSH DRILL IN PUBLIC SCHOOLS

Dr. Carter Sets North Kentucky for Preventive Dentistry, With Focusing of Proper Habits in Children and Outlines Plans for Clinic in Grammar School.

The vocational task at the Rotary Club luncheon on Wednesday was by Dr. Charles O. Carter, whose subject was the importance of preventive dentistry in maintaining the general health. Among other things, he outlined a daily toothbrush drill in the public schools. Dr. Carter's paper followed:

Dentists' duties back to King Solomon's temple and has steadily grown in importance until now it is as important as medicine or any other profession. It has been subdivided into orthodontists (who extract teeth), oral surgeons (who operate on clefts, lip and palate), and malignant growths in the mouth. In this day of specialists it is well to send such cases to men who make a specialty of one class of work.

The day is coming when the dentist will be compelled to have an M. D. back of his name, as he is constantly using drugs which effect the pulse and respiration, also the physician who tries to do dental work (and we have some in our city) should have some instruction on dental subjects to keep both the patient and doctor out of trouble.

The dentist of today is regarded by many as an expert mechanic and his work is 75 per cent mechanical, but it is through mechanical means that he helps nature to function properly. The public have dental work done for several reasons, personal appearance, to prevent pain from toothache and others to keep their bodies healthy and normal.

The day has gone by when anyone was a dentist who could extract a tooth. In fact, the average practitioner does not do any extracting but sends it to the man who makes a specialty of that branch of dentistry. Any man who tries to specialize in everything is good in nothing.

I shall not speak to you about personal appearance or toothache, but will go back to the question of health.

Let us take a child 2½ years old. We find all the temporary teeth in place in good condition. This child's teeth should be cleaned with a toothbrush twice a day, and when she is 3½ years old she will have acquired the habit and will clean them herself, and this habit will follow her through life. The temporary teeth should be carefully watched and should any cavities appear they should be filled at once. Don't wait until toothache appears, as that is a cry from nature that you have gone the limit. At the age of 5, she should be brought to the dentist and should make six months' visits as long as she lives.

If a dentist is kind and gains the confidence of the child he will have almost no trouble with her. The benefits derived from such a program are numerous—health from thorough mastication, a more active brain, happier and more contented with every phase of life and less liable to contract disease.

This is the ideal condition toward which we are constantly working. When you get home, look in the mouths of your children and see if you find ideal conditions. Now I want to show you another child whose teeth never are cleaned with a toothbrush, who is constantly sucking a lollipop or whose hands are always sticky from penny candy. This child is pale, undernourished, has a bad breath, stomach is out of order and is constantly taking cathartics. In a year from the time the temporary teeth have appeared trouble begins. The mother has many sleepless nights trying to cure toothache and finally the dentist is resorted to. What does he find? First that he has a very irritable patient to deal with, a mouth red with inflammation, teeth with many cavities in them, some with exposed nerves in a hypersensitive condition, abscesses with pus flowing into the mouth to be taken into the stomach and intestines, there to cause all kinds of disease which will follow the child to its grave.

Such a condition as this is very common and a child whose mouth is neglected at this early stage finds trouble when the second set of teeth erupt. It is only natural to find the permanent set weak and susceptible to decay after such an unsanitary condition. The permanent set get about the same care as the temporary did and the child soon hates the dentist and every instrument he uses. This is the child who is underweight, anemic, backward in school, irritable and ill tempered and in many cases never reaches the high school. Such a condition as I have described is fertile soil for all kinds of disease. T. B., influenza, diphtheria, grip and many others unnecessary to mention, as most all bacteria are found in the mouth and only await lowered vitality to start something.

The contrast between these two cases is what I wish to bring to your attention. One happy, healthy, normal, the other unhappy, unhealthy and anything but normal. Where do we find these bad conditions and what can we do to improve them?

As the old saying goes, "As the twig is bent so the tree will grow." Our schools are full of children and if a thorough examination was made of everyone you would be more than surprised.

Take 100 children from our grade schools and I think I am safe in stating that 50 of them have lost their 6 year molars, the best tooth in the mouth and the other 50 need some dentistry. In other words I claim that less than 15 per cent of our children have a mouth which is clean from a dental standpoint. The first thing is to educate the child in the public schools to use a toothbrush by having a 5 minute tooth brush drill every day, they will soon get the habit and will take it home with them. Next, we should have a school clinic, for those who are unable to have a private dentist.

and I have my own idea how it should be run. Why teach to a school child to do an endless job, to make a dentist a dentist who wants just one job. He should have a busy profession and a well equipped office in the high school.

The expense of this clinic should be born by the city, put in the tax budget and I as a tax paying citizen would gladly pay my share. Such a clinic in five years would pay dividends in healthier children and would make better citizens for Old Kingston.

**TABASCO HEIGHTS.**

Tabasco Heights, March 8.—Miss Esther Wynkoop spent Saturday and Sunday with the Misses Hattie and Ethel Kelder at Leibhardt and attended the birthday party of Miss Lucy Muller at her home in Mettawhona. She reported a fine time.

John Mertine and Lester Wynkoop spent from Friday until Sunday with Mr. and Mrs. Elvin Mertine and family at New Paltz.

Mr. and Mrs. Vaughn Decker moved their household furniture from the tenant house of Josiah Terwilliger to Kerhonkson on Friday last. Mr. Decker will be employed by Dr. Focord.

We are glad to report that the family of Joseph Blanning are all on the gain after being sick.

Mr. and Mrs. Asa Wynkoop, Joseph Van Vleet and son Isaac and Judson Decker attended the funeral of Charles Terwilliger at Kerhonkson on Saturday.

Lorenze Decker and son Jerry are getting out logs for Z. Osborn. Myron Terwilliger and Clyde Diamond who have been sick for a few days, are better.

Alfred Markle of Mombaccus was in this place on business Saturday night.

Mr. and Mrs. Russel Winne spent Saturday and Sunday with friends in Kingston.

Mrs. Rose Diamond and son Clyde and sister Mary Terwilliger spent one day the past week with their sister, Mrs. Blanche Wilkow, at Whitfield. Lester Wynkoop spent Tuesday with Mr. and Mrs. David Burgher at Kerhonkson.

**MOMBACCUS HEIGHTS.**

Mombaccus Heights, March 9.—School was closed for three days last week owing to the illness of the teacher.

William DePuy has been making some interior alterations that will add to the convenience and comfort of his attractive dwelling.

Mrs. Elting Beesimer returned home last week after spending a few days with her daughter at Samsonville.

Two auto parties from this place and other guests enjoyed a social time at the home of Mr. and Mrs. Harry Smith on Thursday last. An excellent supper followed by cream, a bewildering lot of cakes, candy, nuts and popcorn was first disposed of, then came music, singing and dancing till a late hour. Howard Smith and sister Miss Selma Hartelius of Napanoch were among the guests and all spent a very enjoyable evening.

Mrs. M. Green has been entertaining relatives for a time.

Clifford Hartelius and mother motored to Napanoch Sunday, the latter remaining for a few days with relatives.

The snow last week gave the logging business another boost.

Miss Selma Hartelius spent a day or two at her home here recently.

George and Clifford Hartelius and Harold Van Ethen spent Tuesday evening with Mr. and Mrs. W. DePuy.

**Care of Ferns.**

One teaspoonful of household ammonia in one gallon of water is an excellent combination for watering your fern occasionally. Use not more than once a month.

**Curiosity Excited.**

"That office boy gets on my nerves." "Why so? He doesn't whistle." "There you are! Why doesn't he? That's what I want to know."—Toledo Blade.

**Card of Thanks.**

We wish to extend our thanks and appreciation to all our friends and neighbors, who were so kind to us during our sad bereavement over our beloved wife and mother, Mary Kane, also for the floral offering from Mr. Bergman and employees.

Compressed air saved the life of Torres Olson, a diver, when he was seized with the "chills," caused by working deep under water. Olson was rushed to the Brooklyn Navy Yard and placed in the tank pictured here. Paralysis in Olson's legs was relieved when the tank was filled with compressed air. The diver is shown here looking out of the air tank which saved his life.

Princess Hassan

A demand of \$2,500,000 for legal services in securing half of \$10,000,000 from the estate of the late Prince Hassan for his American wife, Olga Humphrey, well-known actress, has been made by Herman L. Roth, New York theatrical lawyer. Roth was engaged to secure a divorce for the Princess, he says, and employed high-priced Paris lawyers to aid him. But the Prince died before the divorce was granted. Princess Hassan, who has returned to America, still was his legal wife. She inherited \$5,000,000, half of the estate left by Prince Hassan. Charging that the Princess Hassan agreed to split "fifty-fifty" with him any money realized from court actions against the Prince, Roth brought suit. Princess Hassan resides in California.

## RADIO AND OTHER THINGS AT Y. M. C. A.

Monday evening at the Y. M. C. A., the city boys interested in radio met and organized with the following elections resulting: Clinton Dederick, president; Edward Leverett, vice president; and Fred Anderson, secretary and treasurer. Albert Johnson, the local licensed operator, was unanimously acclaimed chief operator and instructor to the club. The boys interested in the wireless project is large and already extensive plans have been made for the future.

The Tuesday evening Bible classes and bean suppers are still in existence for the smaller lads of the boys' department, and are well attended.

Wednesday evening at 6:15 the weekly meeting of the H-Y Club took place and the club had as its guests Mr. and Mrs. French, of the Hurley branch of the club. The speaker of the evening was the Rev. Mr. Ingersoll of the Wurts Street Baptist Church, and Mr. Ingersoll pursued as his topic "Imitation. Suggestion and Inclination." Using as an homely illustration of the topic, a yeast cake with the tin-foil wrapper still intact, Mr. Ingersoll pointed to the youths that as the yeast cake may be put to inviolable use by removal of the contents from the wrapper, so may the talents and the influence given them either lead people to a useful life or it may set many off on a tangent without ever doing themselves or society an atom of good. Following Mr. Ingersoll's address the usual discussion class was held with Mr. Mac Intyre and Mr. Hall leading.

The winners in the Student A League won quite decisive victories Friday evening with the Antlers losing to the Argos 31-22. The Argos mystifying the Athletics, 42-14.

The Antlers played in considerable ill luck all evening as no success attended any of the difficult attempted shots and even the sinkers refusing to stay put. Hasbrouck and Dederick played the only commendable scoring games for their side, while the guards did their utmost to hold the Argos from registering.

Clarke and Rowland, of the Argos, made a hit with the baskets to the extent that their shots stayed put to the extent of 11 and 8 points each. Cutler, Brown, Linson, Warren and Buchholz each played hard and helped decidedly the victory of the team.

As for the Athletics they were left trailing in the dust of the Argos in the first session of the Athletics-Arrow contest and the twilight period found them hopelessly in arrears. Corregan of the Athletics saved his team from complete annihilation with ten points, or just enough to put his team on the score sheet. Eric Brown, however, played the best guarding game for the nimble ones and his opponent only tallied 7 points. But McFadden skipped gaily along with ten field goals and two foul points in his pockets; trailing him was "Whitey" Schmidt with 14 units of measure in the final reckoning. Stelle's man only scored two field goals, while the rest that he gained was the result of shooting his teammates' complimentary. Joe Carroll played an all-around fast floor game and no attempt was made on his part to feature individually.

In the near future Mr. Begg is going to take some of the representative teams to play in Poughkeepsie against the "Y" teams there. The teams that will go will be from the different boys' classes and a Senior team will go along to participate in a volleyball meet. Not long ago it will be remembered that the Poughkeepsie lads visited Kingston and a landslide of victory attended their visit; now the locals intend to retaliate.

## RESULTS IN STATE LEAGUE

Cohoes met defeat for the first time in the race for the second half series Wednesday evening, at the Albany court. The Cohoes team won eight straight games. They played rough ball against the Senators, seeing that they were out-classed. The final score was 31 to 17.

Harry Riconda was the star of the evening, scoring twenty points and having the opposing guards on his back during the forty minutes of play.

A number of disputes started in the early part of the game and before the closing time resulted in blows being struck by the players. As usual Referee Solodar was framed up, an excuse for the losing team to raise a dispute.
